ACKNOWLEDGMENTS

1. The amendment filed 8/23/05 is acknowledged wherein claims 1-27 are canceled.

Note: Claims 28-30 are pending.

RESPONSE TO APPLICANT'S AMENDMENT/ARGUMENTS

2. The Applicant's arguments filed 8/23/05 rejections of claims 28-30 made by the Examiner under 35 USC 103 have been fully considered and deemed persuasive for reasons of record. Therefore, the said rejections are hereby withdrawn.

NEW GROUNDS OF REJECTIONS

112 First Paragraph (Written Description)

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 29 and 30 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The specification fails to disclose the medication(s) that are administered to a subject in order to reduce the cortisol level to normal in the cerebral spinal fluid. Thus,

Art Unit: 1618

one cannot ascertain what specific medication are administered in the treat of Alzheimer's disease in a subject such that the cortisol levels are reduced to normal within the cerebral spinal fluid.

112 Second Paragraph Rejection

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 29 and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims as written are ambiguous because of the phrase 'a medication having a property of binding cortisol to reduce the level to normal' in independent claim 29 (lines 5-6). In particular, neither the specification nor the claim disclose what medication(s) Applicant is referring to which reduces the cortisol level to normal in the subject. Since claim 30 depends upon claim 29, it is also ambiguous.

ALLOWABLE CLAIM

7. Claim 28 is allowable over the prior art of record. In particular, the claim is distinguished over the art for reasons of record in Applicant's response filed 5/23/05.

COMMENTS/NOTES

8. It should be noted that no prior art has been cited against the instant invention. In particular, the claims are distinguished over the prior art of record for reasons of record in Applicant's response submitted 5/23/05.
